<i>Title</i> MK Homefix - One page website

**Dear Peter**

**Thank you for your valued quote request in respect of the MK Homefix - One page website.**

**Please find below the illustration of cost submitted by Luca Design based on the following summary:**

**Summary**

The following cost illustration is for the creation of a responsive website for MK Homefix as discussed in our phone conversation. The website will have a content management system allowing text addition and changes and some possible image additions and changes. The website will be fully responsive, designed and produced to adapt to mobile phone or PC and whether portrait or landscape as per the following example (<https://carloscoffeekitchen.co.uk/>).

The site would benefit from photos. Perhaps you have some examples, though ideally as a professional photographer I suggest I take some photos of previous work to optimise the look of the website. I will supply a separate quote for this.

The cost is based on text being supplied in digital format.

**Stage One**

I will originate one or more alternative designs for the responsive website

**£60.00**

**Stage Two**

Following the presentation I will take feedback and allowing for a reasonable level of changes, develop to final finished web site.

**£120.00**

**Total of the above**

**£180.00**

I hope you find that this estimate meets with your requirements, but please do not hesitate to contact me if you have any questions or further comments as I will be pleased to be of further assistance.

I look forward to hearing from you.

**Frank Scarito**
