Engineering and Construction Contract

OPTION E: COST REIMBURSABLE CONTRACT

This contract should be used for the appointment of a contractor for engineering and construction work, including any level of design responsibility

An NEC document

June 2017

(with amendments October 2020)

The Government Construction Board, Cabinet Office UK

The Government Construction Board (formerly Construction Clients' Board) recommends that public sector organisations use the NEC contracts and in particular the NEC4 contracts where appropriate, when procuring construction. Standardising use of this comprehensive suite of contracts should help to deliver efficiencies across the public sector and promote behaviours in line with the principles of the Government Construction Strategy.

The Development Bureau, HKSAR Government

The Development Bureau recommends the progressive transition from NEC3 to NEC4 in public works projects in Hong Kong. With suitable amendments to adapt to the Hong Kong local environment, NEC4 is expected to further enhance collaborative partnering, unlock innovations and achieve better cost management and value for money in public works projects.

NEC is a division of Thomas Telford Ltd, which is a wholly owned subsidiary of the Institution of Civil Engineers (ICE), the owner and developer of the NEC.

The NEC is a suite of standard contracts, each of which has these characteristics:

- Its use stimulates good management of the relationship between the two parties to the contract and, hence, of the work included in the contract.
- It can be used in a wide variety of commercial situations, for a wide variety of types of work and in any location.
- It is a clear and simple document – using language and a structure which are straightforward and easily understood.

NEC4 Engineering and Construction Contract is one of the NEC suite and is consistent with all other NEC4 documents. Also available are User Guides, Flow Charts and Options A, B, C, D and F.

Foreword

Continuous improvement in project delivery is required to build confidence in the UK construction sector so that we can attract more investment. The Infrastructure and Projects Authority (IPA) is the government's centre of expertise for infrastructure and major projects. We sit at the heart of government, reporting to the Cabinet Office and HM Treasury.

The application of the right contract is central to the success of the overall project delivery system. The NEC suite of contracts has been in existence for over the 20 years and has linked the projects, people and processes together to create the correct environment for successful delivery.

This new and updated NEC4 contract embraces the digital changes that are happening in the construction industry, especially around BIM, which I believe will be central to creating a step change in performance. Whilst looking forward it also builds on the fundamentals required for an effective contract.

The use of NEC4 on public sector projects will help to deliver the Government Construction Strategy as we seek to improve central government's capability as a construction client to deliver further savings in the order of £1.7bn across the Government estate. The IPA looks forward to collaborating with industry to make the delivery of projects more efficient and effective.

Preface

NEC was first published as a new and innovative way of managing construction contracts in 1993 – some 24 years ago. It was designed to facilitate and encourage good management of risks and uncertainties, using clear and simple language.

The NEC approach to managing contracts was endorsed in “Constructing the team – The Latham Report”, which was a government/industry review of procurement and contractual arrangements in the UK construction industry. This led to a second edition in 1995 incorporating the further recommendations of that review. This contract was used increasingly in the UK and overseas, and a major revision was made with the third edition in 2005.

NEC has played a part in helping the industry do things differently and better. It has done so by introducing effective project management procedures into the contract itself. These require pro-active management of risk and change, and the day-to-day use of an up-to-date programme. The range of pricing options has given Clients flexibility in the allocation of risk and the ability to share risk and manage it, collaboratively.

The NEC suite has evolved over three decades, embedding consultation responses and user feedback, and reflecting industry development, including new procurement approaches and management techniques such as alliances, management of information (BIM) and supply chain engagement. This feedback and the new procurement approaches formed the driver for the development of the next generation contracts and the launch of NEC4.

There were three key objectives in drafting NEC4:

- provide greater stimulus to good management
- support new approaches to procurement which improve contract management and
- inspire increased use of NEC in new markets and sectors.

It was to be evolution, not revolution.

Some features of NEC4 include:

- a new design build and operate contract to allow flexibility between construction and operational requirements in timing and extent
- a new multi-party alliance contract based upon an integrated risk and reward model
- new forms of subcontract to improve integration of the supply chain.

Further enhancements include:

- finalising cost elements during the contract
- incorporating a party-led dispute avoidance process into the adjudication process
- increasing standardisation between contracts and
- providing enhanced guidance to give greater practical advice to users.

NEC has always been known for its innovative approach to contract management, and this revision continues that approach. No other contract suite has had such a transformative effect on the built environment industry as NEC. It has put the collaborative sharing of risk and reward at the heart of modern procurement. It is also unique in providing a complete, back-to-back procurement solution for all works, services and supplies in any sector and any country.

NEC4 continues to set the benchmark for best practice procurement worldwide.

(34) The Prices are the forecast of the total Defined Cost for the whole of the works plus the Fee.

Interpretation and the law 12

- 12.1 In the contract, except where the context shows otherwise, words in the singular also mean in the plural and the other way round.
- 12.2 The contract is governed by the *law of the contract*.
- 12.3 No change to the contract, unless provided for by these *conditions of contract*, has effect unless it has been agreed, confirmed in writing and signed by the Parties.
- 12.4 The contract is the entire agreement between the Parties.

Communications 13

- 13.1 Each communication which the contract requires is communicated in a form which can be read, copied and recorded. Writing is in the *language of the contract*.
- 13.2 If the Scope specifies the use of a communication system, a communication has effect when it is communicated through the communication system specified in the Scope.

If the Scope does not specify a communication system, a communication has effect when it is received at the last address notified by the recipient for receiving communications or, if none is notified, at the address of the recipient stated in the Contract Data.
- 13.3 If the contract requires the *Project Manager*, the *Supervisor* or the *Contractor* to reply to a communication, unless otherwise stated in these *conditions of contract*, they reply within the *period for reply*.

- 13.4 The *Project Manager* replies to a communication submitted or resubmitted by the *Contractor* for acceptance. If the reply is not acceptance, the *Project Manager* states the reasons in sufficient detail to enable the *Contractor* to correct the matter. The *Contractor* resubmits the communication within the *period for reply* taking account of these reasons. A reason for withholding acceptance is that more information is needed in order to assess the *Contractor's* submission fully.
- 13.5 The *Project Manager* may extend the period for reply to a communication if the *Project Manager* and the *Contractor* agree to the extension before the reply is due. The *Project Manager* informs the *Contractor* of the extension which has been agreed.
- 13.6 The *Project Manager* issues certificates to the *Client* and the *Contractor*. The *Supervisor* issues certificates to the *Project Manager*, the *Client* and the *Contractor*.
- 13.7 A notification or certificate which the contract requires is communicated separately from other communications.
- 13.8 The *Project Manager* may withhold acceptance of a submission by the *Contractor*. Withholding acceptance for a reason stated in these *conditions of contract* is not a compensation event.

The Project Manager and the Supervisor

- 14
- 14.1 The *Project Manager's* or the *Supervisor's* acceptance of a communication from the *Contractor* or acceptance of the work does not change the *Contractor's* responsibility to Provide the Works or liability for its design.
- 14.2 The *Project Manager* and the *Supervisor*, after notifying the *Contractor*, may delegate any of their actions and may cancel any delegation. The notification contains the name of the delegate and details of the actions being delegated or any cancellation of delegation. A reference to an action of the *Project Manager* or the *Supervisor* in the contract includes an action by their delegate. The *Project Manager* and the *Supervisor* may take an action which they have delegated.
- 14.3 The *Project Manager* may give an instruction to the *Contractor* which changes the Scope or a Key Date.
- 14.4 The *Client* may replace the *Project Manager* or the *Supervisor* after notifying the *Contractor* of the name of the replacement.

Early warning

- 15
- 15.1 The *Contractor* and the *Project Manager* give an early warning by notifying the other as soon as either becomes aware of any matter which could
 - increase the total of the Prices,
 - delay Completion,
 - delay meeting a Key Date or
 - impair the performance of the *works* in use.

The *Project Manager* or the *Contractor* may give an early warning by notifying the other of any other matter which could increase the *Contractor's* total cost. The *Project Manager* enters early warning matters in the Early Warning Register. Early warning of a matter for which a compensation event has previously been notified is not required.

15.2 The *Project Manager* prepares a first Early Warning Register and issues it to the *Contractor* within one week of the *starting date*. The *Project Manager* instructs the *Contractor* to attend a first early warning meeting within two weeks of the *starting date*.

Later early warning meetings are held

- if either the *Project Manager* or *Contractor* instructs the other to attend an early warning meeting, and, in any case,
- at no longer interval than the interval stated in the Contract Data until Completion of the whole of the *works*.

The *Project Manager* or *Contractor* may instruct other people to attend an early warning meeting if the other agrees.

A Subcontractor attends an early warning meeting if its attendance would assist in deciding the actions to be taken.

15.3 At an early warning meeting, those who attend co-operate in

- making and considering proposals for how the effects of each matter in the Early Warning Register can be avoided or reduced,
- seeking solutions that will bring advantage to all those who will be affected,
- deciding on the actions which will be taken and who, in accordance with the contract, will take them,
- deciding which matters can be removed from the Early Warning Register and
- reviewing actions recorded in the Early Warning Register and deciding if different actions need to be taken and who, in accordance with the contract, will take them.

15.4 The *Project Manager* revises the Early Warning Register to record the decisions made at each early warning meeting and issues the revised Early Warning Register to the *Contractor* within one week of the early warning meeting. If a decision needs a change to the Scope, the *Project Manager* instructs the change at the same time as the revised Early Warning Register is issued.

Contractor's proposals

16

16.1 The *Contractor* may propose to the *Project Manager* that the Scope provided by the *Client* is changed in order to reduce the amount the *Client* pays to the *Contractor* for Providing the Works. The *Project Manager* consults with the *Client* and the *Contractor* about the change.

16.2 Within four weeks of the *Contractor* making the proposal the *Project Manager*

- accepts the *Contractor's* proposal and issues an instruction changing the Scope,
- informs the *Contractor* that the *Client* is considering the proposal and instructs the *Contractor* to submit a quotation for a proposed instruction to change the Scope or
- informs the *Contractor* that the proposal is not accepted.

The *Project Manager* may give any reason for not accepting the proposal.

16.3 The *Contractor* may submit a proposal for adding an area to the Working Areas to the *Project Manager* for acceptance. A reason for not accepting is that the proposed area is

- not necessary for Providing the Works or
- used for work not in the contract.

Requirements for instructions

17

17.1 The *Project Manager* or the *Contractor* notifies the other as soon as either becomes aware of an ambiguity or inconsistency in or between the documents which are part of the contract. The *Project Manager* states how the ambiguity or inconsistency should be resolved.

17.2 The *Project Manager* or the *Contractor* notifies the other as soon as either becomes aware that the Scope includes an illegal or impossible requirement. If the Scope does include an illegal or impossible requirement, the *Project Manager* gives an instruction to change the Scope appropriately.

Corrupt Acts 18

18.1 The *Contractor* does not do a Corrupt Act.

18.2 The *Contractor* takes action to stop a Corrupt Act of a Subcontractor or supplier of which it is, or should be, aware.

18.3 The *Contractor* includes equivalent provisions to these in subcontracts and contracts for the supply of Plant and Materials and Equipment.

Prevention 19

19.1 If an event occurs which

- stops the *Contractor* completing the whole of the *works* or
- stops the *Contractor* completing the whole of the *works* by the date for planned Completion shown on the Accepted Programme,

and which

- neither Party could prevent and
- an experienced contractor would have judged at the Contract Date to have such a small chance of occurring that it would have been unreasonable to have allowed for it,

the *Project Manager* gives an instruction to the *Contractor* stating how the event is to be dealt with.

2. THE CONTRACTOR'S MAIN RESPONSIBILITIES

Providing the Works	20	
	20.1	The <i>Contractor</i> Provides the Works in accordance with the Scope.
	20.3	The <i>Contractor</i> advises the <i>Project Manager</i> on the practical implications of the design of the works and on subcontracting arrangements.
	20.4	The <i>Contractor</i> prepares forecasts of the total Defined Cost for the whole of the works in consultation with the <i>Project Manager</i> and submits them to the <i>Project Manager</i>. Forecasts are prepared at the intervals stated in the Contract Data from the <i>starting date</i> until Completion of the whole of the works. An explanation of the changes made since the previous forecast is submitted with each forecast.
The <i>Contractor's</i> design	21	
	21.1	The <i>Contractor</i> designs the parts of the works which the Scope states the <i>Contractor</i> is to design.
	21.2	The <i>Contractor</i> submits the particulars of its design as the Scope requires to the <i>Project Manager</i> for acceptance. A reason for not accepting the <i>Contractor's</i> design is that it does not comply with either the Scope or the applicable law. The <i>Contractor</i> does not proceed with the relevant work until the <i>Project Manager</i> has accepted its design.
	21.3	The <i>Contractor</i> may submit its design for acceptance in parts if the design of each part can be assessed fully.
Using the <i>Contractor's</i> design	22	
	22.1	The <i>Client</i> may use and copy the <i>Contractor's</i> design for any purpose connected with construction, use, alteration or demolition of the works unless otherwise stated in the Scope and for other purposes as stated in the contract. The <i>Contractor</i> obtains from a Subcontractor equivalent rights for the <i>Client</i> to use material prepared by the Subcontractor.
Design of Equipment	23

- 50
- 50.1 The *Project Manager* assesses the amount due at each assessment date. The first assessment date is decided by the *Project Manager* to suit the procedures of the Parties and is not later than the *assessment interval* after the *starting date*. Later assessment dates occur at the end of each *assessment interval* until
- the *Supervisor* issues the Defects Certificate or
 - the *Project Manager* issues a termination certificate.
- 50.2 The *Contractor* submits an application for payment to the *Project Manager* before each assessment date setting out the amount the *Contractor* considers is due at the assessment date. The *Contractor's* application for payment includes details of how the amount has been assessed and is in the form stated in the Scope.
- In assessing the amount due, the *Project Manager* considers an application for payment submitted by the *Contractor* before the assessment date.
- 50.3 If the *Contractor* submits an application for payment before the assessment date, the amount due at the assessment date is
- the Price for Work Done to Date,
 - plus other amounts to be paid to the *Contractor*,

- 50.5 If no programme is identified in the Contract Data, one quarter of the Price for Work Done to Date is retained in assessments of the amount due until the *Contractor* has submitted a first programme to the *Project Manager* for acceptance showing the information which the contract requires.
- 50.6 The *Project Manager* corrects any incorrectly assessed amount due in a later payment certificate.
- 50.8 Payments of Defined Cost made by the Contractor in a currency other than the currency of the contract are included in the amount due as payments to be made to it in the same currency. - 50.9 **The Contractor notifies the Project Manager when the Defined Cost for a part of the works has been finalised, and makes available for inspection the records necessary to demonstrate that it has been correctly assessed. The Project Manager reviews the records made available, and no later than thirteen weeks after the Contractor's notification**
- accepts that part of Defined Cost as correct,
 - notifies the Contractor that further records are needed or
 - notifies the Contractor of errors in its assessment.
- The Contractor provides any further records requested or advises the correction of the errors in its assessment within four weeks of the Project Manager's notification. The Project Manager reviews the records provided, and within four weeks**

Payment	51	
	51.1	The <i>Project Manager</i> certifies a payment within one week of each assessment date. The <i>Project Manager's</i> certificate includes details of how the amount due has been assessed. The first payment is the amount due. Other payments are the change in the amount due since the previous assessment. A payment is made by the <i>Contractor</i> to the <i>Client</i> if the change reduces the amount due. Other payments are made by the <i>Client</i> to the <i>Contractor</i> . Payments are in the <i>currency of the contract</i> unless otherwise stated in the contract.
	51.2	Each certified payment is made within three weeks of the assessment date or, if a different period is stated in the Contract Data, within the period stated. Interest is assessed from the date when the incorrect amount was certified until the date when the changed amount is certified and is included in the assessment which includes the changed amount.
	51.4	Interest is calculated on a daily basis at the <i>interest rate</i> and is compounded annually.

Otherwise, the *Project Manager* notifies the *Contractor* that the event is a compensation event and includes in the notification an instruction to the *Contractor* to submit quotations.

If the *Project Manager* fails to reply to the *Contractor's* notification of a compensation event within the time allowed, the *Contractor* may notify the *Project Manager* of that failure. If the failure continues for a further two weeks after the *Contractor's* notification it is treated as acceptance by the *Project Manager* that the event is a compensation event and an instruction to submit quotations.

- 61.5 If the *Project Manager* decides that the *Contractor* did not give an early warning of the event which an experienced contractor could have given, the *Project Manager* states this in the instruction to the *Contractor* to submit quotations.
- 61.6 If the effects of a compensation event are too uncertain to be forecast reasonably, the *Project Manager* states assumptions about the compensation event in the instruction to the *Contractor* to submit quotations. Assessment of the event is based on these assumptions. If any of them is later found to have been wrong, the *Project Manager* notifies a correction.
- 61.7 A compensation event is not notified by the *Project Manager* or the *Contractor* after the issue of the Defects Certificate.

Quotations for compensation events

- 62
- 62.1 After discussing with the *Contractor* different ways of dealing with the compensation event which are practicable, the *Project Manager* may instruct the *Contractor* to submit alternative quotations. The *Contractor* submits the required quotations to the *Project Manager* and may submit quotations for other methods of dealing with the compensation event which it considers practicable.

- 62.2 Quotations for a compensation event comprise proposed changes to the Prices and any delay to the Completion Date and Key Dates assessed by the *Contractor*. The *Contractor* submits details of the assessment with each quotation. If the programme for remaining work is altered by the compensation event, the *Contractor* includes the alterations to the Accepted Programme in the quotation.
- 62.3 The *Contractor* submits quotations within three weeks of being instructed to do so by the *Project Manager*. The *Project Manager* replies within two weeks of the submission. The reply is
- a notification of acceptance of the quotation,
 - an instruction to submit a revised quotation or
 - that the *Project Manager* will be making the assessment.
- 62.4 The *Project Manager* instructs the *Contractor* to submit a revised quotation only after explaining the reasons for doing so to the *Contractor*. The *Contractor* submits the revised quotation within three weeks of being instructed to do so.
- 62.5 The *Project Manager* extends the time allowed for
- the *Contractor* to submit quotations for a compensation event or
 - the *Project Manager* to reply to a quotation
- if the *Project Manager* and the *Contractor* agree to the extension before the submission or reply is due. The *Project Manager* informs the *Contractor* of the extension which has been agreed.
- 62.6 If the *Project Manager* does not reply to a quotation within the time allowed, the *Contractor* may notify the *Project Manager* of that failure. If the *Contractor* submitted more than one quotation for the compensation event, the notification states which quotation the *Contractor* proposes is to be used. If the failure continues for a further two weeks after the *Contractor*'s notification it is treated as acceptance by the *Project Manager* of the quotation.

Assessing compensation events

- 63**
- 63.1 The change to the Prices is assessed as the effect of the compensation event upon
- the actual Defined Cost of the work done by the dividing date,
 - the forecast Defined Cost of the work not done by the dividing date and
- the resulting Fee.
- For a compensation event that arises from the *Project Manager* or the *Supervisor* giving an instruction or notification, issuing a certificate or changing an earlier decision, the dividing date is the date of that communication.
- For other compensation events, the dividing date is the date of the notification of the compensation event.
- 63.2 The *Project Manager* and the *Contractor* may agree rates or lump sums to assess the change to the Prices.
- 63.3 If the effect of a compensation event is to reduce the total Defined Cost, the Prices are not reduced unless otherwise stated in these *conditions of contract*.
- 63.4 If the effect of a compensation event is to reduce the total Defined Cost and the event is
- a change to the Scope other than a change to the Scope provided by the *Client*, which the *Contractor* proposed and the *Project Manager* accepted or
 - a correction to an assumption stated by the *Project Manager* for assessing an earlier compensation event
- the Prices are reduced.

63.5 A delay to the Completion Date is assessed as the length of time that, due to the compensation event, planned Completion is later than planned Completion as shown on the Accepted Programme current at the dividing date.

A delay to a Key Date is assessed as the length of time that, due to the compensation event, the planned date when the Condition stated for a Key Date will be met is later than the date shown on the Accepted Programme current at the dividing date.

The assessment takes into account

- any delay caused by the compensation event already in the Accepted Programme and
- events which have happened between the date of the Accepted Programme and the dividing date.

63.6 The rights of the *Client* and the *Contractor* to changes to the Prices, the Completion Date and the Key Dates are their only rights in respect of a compensation event.

63.7 If the *Project Manager* has stated in the instruction to submit quotations that the *Contractor* did not give an early warning of the event which an experienced contractor could have given, the compensation event is assessed as if the *Contractor* had given the early warning.

63.8 The assessment of the effect of a compensation event includes risk allowances for cost and time for matters which have a significant chance of occurring and are not compensation events.

63.9 The assessment of the effect of a compensation event is based upon the assumptions that the *Contractor* reacts competently and promptly to the event and that any Defined Cost and time due to the event are reasonably incurred.

63.10 A compensation event which is an instruction to change the Scope in order to resolve an ambiguity or inconsistency is assessed as if the Prices, the Completion Date and the Key Dates were for the interpretation most favourable to the Party which did not provide the Scope.

63.11 If a change to the Scope makes the description of the Condition for a Key Date incorrect, the *Project Manager* corrects the description. This correction is taken into account in assessing the compensation event for the change to the Scope.

The Project Manager's assessments

64

64.1 The *Project Manager* assesses a compensation event

- if the *Contractor* has not submitted the quotation and details of its assessment within the time allowed,
- if the *Project Manager* decides that the *Contractor* has not assessed the compensation event correctly in the quotation and has not instructed the *Contractor* to submit a revised quotation,
- if, when the *Contractor* submits quotations for the compensation event, it has not submitted a programme or alterations to a programme which the contract requires it to submit or
- if, when the *Contractor* submits quotations for the compensation event, the *Project Manager* has not accepted the *Contractor's* latest programme for one of the reasons stated in the contract.

64.2 The *Project Manager* assesses the programme for the remaining work and uses it in the assessment of a compensation event if

- there is no Accepted Programme,
- the *Contractor* has not submitted a programme or alterations to a programme for acceptance as required by the contract or
- the *Project Manager* has not accepted the *Contractor's* latest programme for one of the reasons stated in the contract.

- 64.3 The *Project Manager* notifies the *Contractor* of the assessment of a compensation event and gives details of the assessment within the period allowed for the *Contractor's* submission of its quotation for the same compensation event. This period starts when the need for the *Project Manager's* assessment becomes apparent.
- 64.4 If the *Project Manager* does not assess a compensation event within the time allowed, the *Contractor* may notify the *Project Manager* of that failure. If the *Contractor* submitted more than one quotation for the compensation event, the notification states which quotation the *Contractor* proposes is to be used. If the failure continues for a further two weeks after the *Contractor's* notification it is treated as acceptance by the *Project Manager* of the quotation.

Proposed instructions

- 65**
- 65.1 The *Project Manager* may instruct the *Contractor* to submit a quotation for a proposed instruction. The *Project Manager* states in the instruction the date by which the proposed instruction may be given. The *Contractor* does not put a proposed instruction into effect.
- 65.2 The *Contractor* submits quotations for a proposed instruction within three weeks of being instructed to do so by the *Project Manager*. The quotation is assessed as a compensation event. The *Project Manager* replies to the *Contractor's* quotation by the date when the proposed instruction may be given. The reply is
- an instruction to submit a revised quotation including the reasons for doing so,
 - the issue of the instruction together with a notification of the instruction as a compensation event and acceptance of the quotation or
 - a notification that the quotation is not accepted.
- If the *Project Manager* does not reply to the quotation within the time allowed, the quotation is not accepted.
- 65.3 If the quotation is not accepted, the *Project Manager* may issue the instruction, notify the instruction as a compensation event and instruct the *Contractor* to submit a quotation.

Implementing compensation events

- 66**
- 66.1 A compensation event is implemented when
- the *Project Manager* notifies acceptance of the *Contractor's* quotation,
 - the *Project Manager* notifies the *Contractor* of an assessment made by the *Project Manager* or
- a *Contractor's* quotation is treated as having been accepted by the *Project Manager*.
- 66.2 When a compensation event is implemented the Prices, the Completion Date and the Key Dates are changed accordingly.
- 66.3 The assessment of an implemented compensation event is not revised except as stated in these *conditions of contract*.

Resolving and Avoiding Disputes

OPTION W1

Used when adjudication is the method of dispute resolution and the United Kingdom Housing Grants, Construction and Regeneration Act 1996 does not apply.

Resolving disputes W1 W1.1

(1) A dispute arising under or in connection with the contract is referred to the *Senior Representatives* in accordance with the Dispute Reference Table. If the dispute is not resolved by the *Senior Representatives*, it is referred to and decided by the *Adjudicator*. A Party may replace a *Senior Representative* after notifying the other Party of the name of the replacement.

(2) The Party referring a dispute notifies the *Senior Representatives*, the other Party and the *Project Manager* of the nature of the dispute it wishes to resolve. Each Party submits to the other their statement of case within one week of the notification. Each statement of case is limited to no more than ten sides of A4 paper together with supporting evidence, unless otherwise agreed by the Parties.

(3) The *Senior Representatives* attend as many meetings and use any procedure they consider necessary to try to resolve the dispute over a period of no more than three weeks. At the end of this period the *Senior Representatives* produce a list of the issues agreed and issues not agreed. The *Project Manager* and the *Contractor* put into effect the issues agreed.

(4) No evidence of the statement of case or discussions is disclosed, used or referred to in any subsequent proceedings before the *Adjudicator* or the *tribunal*.

DISPUTE REFERENCE TABLE

DISPUTE ABOUT	WHICH PARTY MAY REFER IT TO THE <i>SENIOR REPRESENTATIVES</i> ?	WHEN MAY IT BE REFERRED TO THE <i>SENIOR REPRESENTATIVES</i> ?
An action or inaction of the <i>Project Manager</i> or the <i>Supervisor</i>	Either Party	Not more than four weeks after the Party becomes aware of the action or inaction
A programme, compensation event or quotation for a compensation event which is treated as having been accepted	The <i>Client</i>	Not more than four weeks after it was treated as accepted
An assessment of Defined Cost which is treated as correct	Either Party	Not more than four weeks after the assessment was treated as correct
Any other matter	Either Party	When the dispute arises

The *Adjudicator* W1.2

(1) The Parties appoint the *Adjudicator* under the NEC Dispute Resolution Service Contract current at the *starting date*.

(2) The *Adjudicator* acts impartially and decides the dispute as an independent adjudicator and not as an arbitrator.

(3) If the *Adjudicator* is not identified in the Contract Data or if the *Adjudicator* resigns or is unable to act, the Parties choose a new adjudicator jointly. If the Parties have not chosen an adjudicator, either Party may ask the *Adjudicator nominating body* to choose one. The *Adjudicator nominating body* chooses an adjudicator within seven days of the request. The chosen adjudicator becomes the *Adjudicator*.

(4) A replacement *Adjudicator* has the power to decide a dispute referred to a predecessor but not decided at the time when the predecessor resigned or became unable to act. The *Adjudicator* deals with an undecided dispute as if it had been referred on the date of appointment as replacement *Adjudicator*.

(5) The *Adjudicator* and the *Adjudicator's* employees and agents are not liable to the Parties for any action or failure to take action in an adjudication unless the action or failure to take action was in bad faith.

The adjudication	W1.3	<p>(1) A Party disputing any issue not agreed by the <i>Senior Representatives</i> issues a notice of adjudication to the other Party and the <i>Project Manager</i> within two weeks of the production of the list of agreed and not agreed issues, or when it should have been produced. The dispute is referred to the <i>Adjudicator</i> within one week of the notice of adjudication.</p> <p>(2) The times for notifying and referring a dispute may be extended by the <i>Project Manager</i> if the <i>Contractor</i> and the <i>Project Manager</i> agree to the extension before the notice or referral is due. The <i>Project Manager</i> informs the <i>Contractor</i> of the extension that has been agreed. If a disputed matter is not notified and referred within the times set out in the contract, neither Party may subsequently refer it to the <i>Adjudicator</i> or the <i>tribunal</i>.</p> <p>(3) The Party referring the dispute to the <i>Adjudicator</i> includes with its referral information to be considered by the <i>Adjudicator</i>. Any more information from a Party to be considered by the <i>Adjudicator</i> is provided within four weeks of the referral. This period may be extended if the <i>Adjudicator</i> and the Parties agree.</p> <p>(4) If a matter disputed by the <i>Contractor</i> under or in connection with a subcontract is also a matter disputed under or in connection with the contract and if the subcontract allows, the <i>Contractor</i> may refer the subcontract dispute to the <i>Adjudicator</i> at the same time as the main contract referral. The <i>Adjudicator</i> then decides the disputes together and references to the Parties for the purposes of the dispute are interpreted as including the Subcontractor.</p> <p>(5) The <i>Adjudicator</i> may</p> <ul style="list-style-type: none"> • review and revise any action or inaction of the <i>Project Manager</i> or <i>Supervisor</i> related to the dispute and alter a matter which has been treated as accepted or correct, • take the initiative in ascertaining the facts and the law related to the dispute, • instruct a Party to provide further information related to the dispute within a stated time and <p style="padding-left: 40px;">instruct a Party to take any other action which is considered necessary for the <i>Adjudicator</i> to reach a decision and to do so within a stated time.</p> <p>(6) A communication between a Party and the <i>Adjudicator</i> is communicated to the other Party at the same time.</p> <p>(7) If the <i>Adjudicator's</i> decision includes assessment of additional cost or delay caused to the <i>Contractor</i>, the assessment is made in the same way as a compensation event is assessed.</p> <p>(8) The <i>Adjudicator</i> decides the dispute and informs the Parties and the <i>Project Manager</i> of the decision and reasons within four weeks of the end of the period for receiving information. This four week period may be extended if the Parties agree.</p> <p>(9) Unless and until the <i>Adjudicator</i> has informed the Parties of the decision, the Parties, the <i>Project Manager</i> and the <i>Supervisor</i> proceed as if the matter disputed was not disputed.</p> <p>(10) The <i>Adjudicator's</i> decision is binding on the Parties unless and until revised by the <i>tribunal</i> and is enforceable as a matter of contractual obligation between the Parties and not as an arbitral award. The <i>Adjudicator's</i> decision is final and binding if neither Party has notified the other within the times required by the contract that it is dissatisfied with a decision of the <i>Adjudicator</i> and intends to refer the matter to the <i>tribunal</i>. A Party does not refer a dispute to the <i>Adjudicator</i> that is the same or substantially the same as one that has already been referred to the <i>Adjudicator</i>.</p>
-------------------------	------	--

(11) The *Adjudicator* may, within two weeks of giving the decision to the Parties, correct any clerical mistake or ambiguity.

The tribunal

W1.4

(1) A Party does not refer any dispute under or in connection with the contract to the *tribunal* unless it has first been referred to the *Adjudicator* in accordance with the contract.

(2) If, after being informed of the *Adjudicator's* decision, a Party is dissatisfied, that Party may notify the other Party of the matter which is disputed and state that it intends to refer the matter to the *tribunal*. The dispute is not referred to the *tribunal* unless this notification is given within four weeks of being informed of the *Adjudicator's* decision.

(3) If the *Adjudicator* does not inform the Parties of the decision within the time provided by the contract, a Party may notify the other Party that it intends to refer the dispute to the *tribunal*. 	W2.1	<p>(1) If the Parties agree, a dispute arising under or in connection with the contract is referred to the <i>Senior Representatives</i>. The <i>Project Manager</i> and the <i>Contractor</i> put into effect the issues agreed.</p> <p>(4) No evidence of the statement of case or discussions is disclosed, used or referred to in any subsequent proceedings before the <i>Adjudicator</i> or the <i>tribunal</i>.</p>
The Adjudicator	W2.2	<p>(1) A dispute arising under or in connection with the contract is referred to and decided by the <i>Adjudicator</i>. A Party may refer a dispute to the <i>Adjudicator</i> at any time whether or not the dispute has been referred to the <i>Senior Representatives</i>.</p> <p>(2) In this Option, time periods stated in days exclude Christmas Day, Good Friday and bank holidays.</p> <p>(3) The Parties appoint the <i>Adjudicator</i> under the NEC Dispute Resolution Service Contract current at the <i>starting date</i>.</p> <p>(4) The <i>Adjudicator</i> acts impartially and decides the dispute as an independent adjudicator and not as an arbitrator.</p> <p>(5) If the <i>Adjudicator</i> is not identified in the Contract Data or if the <i>Adjudicator</i> resigns or becomes unable to act</p> <p style="padding-left: 20px;">the Parties may choose an adjudicator jointly or</p> <ul style="list-style-type: none"> • a Party may ask the <i>Adjudicator nominating body</i> to choose an adjudicator. <p>The <i>Adjudicator nominating body</i> chooses an adjudicator within four days of the request. The chosen adjudicator becomes the <i>Adjudicator</i>.</p> <p>(6) A replacement <i>Adjudicator</i> has the power to decide a dispute referred to a predecessor but not decided at the time when the predecessor resigned or became unable to act. The <i>Adjudicator</i> deals with an undecided dispute as if it had been referred on the date of appointment as replacement <i>Adjudicator</i>.</p> <p>(7) A Party does not refer a dispute to the <i>Adjudicator</i> that is the same or substantially the same as one that has already been decided by the <i>Adjudicator</i>.</p> <p>(8) The <i>Adjudicator</i>, and the <i>Adjudicator's</i> employees and agents are not liable to the Parties for any action or failure to take action in an adjudication unless the action or failure to take action was in bad faith.</p>
The adjudication	W2.3	<p>(1) Before a Party refers a dispute to the <i>Adjudicator</i>, it gives a notice of adjudication to the other Party with a brief description of the dispute and the decision which it wishes the <i>Adjudicator</i> to make. If the <i>Adjudicator</i> is named in the Contract Data, the Party sends a copy of the notice of adjudication to the <i>Adjudicator</i> when it is issued. Within three days of the receipt of the notice of adjudication, the <i>Adjudicator</i> informs the Parties that the <i>Adjudicator</i></p>

- is able to decide the dispute in accordance with the contract or
- is unable to decide the dispute and has resigned.

If the *Adjudicator* does not so inform within three days of the issue of the notice of adjudication, either Party may act as if the *Adjudicator* has resigned.

(2) Within seven days of a Party giving a notice of adjudication it

- refers the dispute to the *Adjudicator*,
- provides the *Adjudicator* with the information on which it relies, including any supporting documents and

Any further information from a Party to be considered by the *Adjudicator* is provided within fourteen days of the referral. This period may be extended if the *Adjudicator* and the Parties agree.

(3) If a matter disputed by the *Contractor* under or in connection with a subcontract is also a matter disputed under or in connection with the contract, the *Contractor* may, with the consent of the Subcontractor, refer the subcontract dispute to the *Adjudicator* at the same time as the main contract referral. The *Adjudicator* then decides the disputes together and references to the Parties for the purposes of the dispute are interpreted as including the Subcontractor.

(4) The *Adjudicator* may

- review and revise any action or inaction of the *Project Manager* or *Supervisor* related to the dispute and alter a matter which has been treated as accepted or correct,
- take the initiative in ascertaining the facts and the law related to the dispute,
- instruct a Party to provide further information related to the dispute within a stated time and

(6) A communication between a Party and the *Adjudicator* is communicated to the other Party at the same time.

(7) If the *Adjudicator's* decision includes assessment of additional cost or delay caused to the *Contractor*, the assessment is made in the same way as a compensation event is assessed. If the *Adjudicator's* decision changes an amount notified as due, the date on which payment of the changed amount becomes due is seven days after the date of the decision.

(8) The *Adjudicator* decides the dispute and informs the Parties and the *Project Manager* of the decision and reasons within twenty eight days of the dispute being referred. This period may be extended by up to fourteen days with the consent of the referring Party or by any other period agreed by the Parties. The *Adjudicator* may in the decision allocate the *Adjudicator's* fees and expenses between the Parties.

(9) Unless and until the *Adjudicator* has informed the Parties of the decision, the Parties, the *Project Manager* and the *Supervisor* proceed as if the matter disputed was not disputed.

(10) If the *Adjudicator* does not inform the Parties of the decision within the time provided by the contract, the Parties and the *Adjudicator* may agree to extend the period for making a decision. If they do not agree to an extension, either Party may act as if the *Adjudicator* has resigned.

(11) The *Adjudicator's* decision is binding on the Parties unless and until revised by the *tribunal* and is enforceable as a matter of contractual obligation between the Parties and not as an arbitral award. The *Adjudicator's* decision is final and binding if neither Party has notified the other within the times required by the contract that it is dissatisfied with a matter decided by the *Adjudicator* and intends to refer the matter to the *tribunal*.

(12) The *Adjudicator* may, within five days of giving the decision to the Parties, correct the decision to remove a clerical or typographical error arising by accident or omission.
